
CSCI-101 Pre-lab Assignment

Week of Oct 31

Problem Description

In the **hw** directory of your repository, create a directory named **Monkeys**. Change your working directory to **Monkeys**.

Create a file named **monkeys.txt** that contains the following data.

Five little monkeys jumping on the bed
One fell off and bumped his head
Mama called the doctor and the doctor said:
"No more monkeys jumping on the bed!"

Create a file named **Monkeys.java** that contains a class that includes the following.

1. In `main()` do the following:
 1. Create a Scanner that can read `monkeys.txt`.
 2. Copy each line of `monkeys.txt` into a different cell in an array named `lyrics`.
 3. Using the array, print to a file named `numWords.txt` the number of words in the lyrics.
 4. Using the array, print to a file named `firstWords.txt` the first words in each line of the lyrics.
