Your client, Prince Mohammed bin Salman, would like the app that you are creating for him to appear and behave exactly like the Starfish app.

Your job is to reverse engineer the app and create a clone with the **exact** appearance and behavior.

Points		Points Awarded
100	Your app is an **exact** clone of the Starfish app. Users are be able to navigate the app via the links and buttons within the app as well as through the Browser's address bar. Your app must contain and use a Pinia store and Vue Router.	
Deductions		
-10	Student's did not clearly articulate the answer to the lecturers questions during the demonstration.	
-100	The instructor has not been provided with URL for live site.	
-10	The app is NOT deployed to same URL as previous assignment.	
-100	The app's source code is NOT deployed to Github repository OR instructor does NOT have access to repo OR instructor has NOT received an email with the source code repo URL.	
-20	The student does NOT demonstrate their app during class	
-100	The student's source code contains code that is identical to the source code provided by another student in the class.
